Medical Records  
Charges for Patients

As of February 1, 2024

Vujevich Dermatology Associates, PC will now follow the Pennsylvania Department of Health Guidelines allowing health care providers and facilities to charge patients or their legal representative for the production of medical charts and records.

Charges shall apply for medical records requests by patients that are printed and faxed, mailed or picked up by the patient. Medical records that are mailed shall also include the cost of postage.

These charges do not apply for medical records sent directly to another provider for continuation of care or when transmitting electronically a copy of the health record directly to an entity or person designated by the individual.

**Patients should be reminded that they are able to avoid this charge by accessing their medical records in an electronic format through our Patient Portal. For assistance in accessing our Patient Portal, please contact us.**
